In order to optimize the installation of PlanningPME Mobile Access, we invite you to read the pre requisites below.

It is mandatory to read each point carefully and to confirm the points that concern your type of installation. After validation, send this document by fax or by e-mail back to us together with the order form.

Your order form will be processed only if this document is returned fully signed.

For more details, our IT department is at your disposal under the following number: +33 (0)1 61 61 20 90 or by e-mail: support@planningpme.com.

I. INSTALLATION PRE REQUISITES

Pre-requisites	Signature
You need any version of PlanningPME (software version 4.0.6.X) or higher.	
The set up is only running from Windows Server 2008 .	
If you already use PlanningPME with a MS Access database, it is mandatory that you migrate to a database other than MS Access. You have the choice between the following databases: Sql Server, My Sql or Oracle . In that case, please contact us to have all the information required to proceed with a data migration.	
IIS (Services Internet) MUST be installed on the server that hosts the site. This is a Windows component. To install it, you must launch the Control Panel - Add or remove programs - Click on Add / remove Windows Components (on the left side) then select Internet Information Services in the list and launch the installation.	
Framework 4.0 must be installed on the server.	

II. DATABASE

Pre-Requisite	Signature
PlanningPME Mobile is compatible with SQL Server, Oracle and MySQL databases. If no database is installed, our team will create one. Please make sure SQL-Server or SQL Server Express (2005 or later) are installed before our team starts working.
