In order to optimize the installation of PlanningPME Web Access, we invite you to read the pre-requisites below.

It is mandatory to read each point carefully and to confirm each one of them with your signature. After validation, please send us back this document by fax or mail together with the order form.

Your order form won't be taken into account if this document is not attached.

For more details, you can contact our IT department under the following number: +33 (0)1 69 47 10 00 or by email: support@planningpme.com.

I. INSTALLATION PRE REQUISITE

| Pre-Requisite | Signature |
|---|-----------|
| The set up is only running from Windows Server 2008 . | |
| If you already use PlanningPME with a MS Access database, it is mandatory that you migrate to another format than MS Access. You have the choice between the following databases: Sql Server, My Sql or Oracle . In this case, please contact us to have all the information required to proceed to the migration. | |
| IIS 7 (Services Internet) MUST be installed on the server that hosts the site. This is a Windows component. To install it, open the Control Panel - Add or remove programs - click on Add / remove Windows Components (on the left hand side) then select Internet Information Services in the list and launch the installation. | |
| The program requires Framework 4.0 to be installed on the server . | |

II. IF YOU DO NOT HAVE A DATABASE ADMINISTRATOR

| Pre-Requisite | Signature |
|---|-----------|
| PlanningPME WebAccess is compatible with SQL Server, Oracle and MySql databases. If you haven't got any database installed, our team will create one. However, please make sure SQL Server or SQL Server Express (2005 or later) is installed before our team starts working. | |
